MANUAL TILE SUCTION CUP

Model DFX-MTS01

Name: 8-inch 1 layer rubber manual suction cup

Maximum load capacity: 170KG

Model DFX-MTS06

Name: 8-inch 1 layer rubber manual suction cup

(specialized for curved surface)

Maximum load capacity: 200KG

Model DFX-MTS03

Name: 9-inch 2-ply rubber manual suction cup

(with D/28mm pressure gage)

Maximum load capacity: 220KG

Purely manual, no batteries
Customized Available

SMART TILE SUCTION CUP

Model DFX-STS01

Name: 8-inch 2 layer rubber smart suction cup

Maximum load capacity: 150KG

Model DFX-STS04

Name: 9-inch 2-ply rubber manual suction cup
(with D/28mm pressure gage)

Maximum load capacity: 220KG

Model DFX-STS07

Name: 8-inch double layer integrated digital suction cup

Maximum load capacity: 200KG

Battery Capacity: 1200/2400mAh
Battery Endurance: 5/7days
Customized Available

SMART TILE SUCTION CUP

Model DFX-ST516

Name: Double layer integrated digital suction cup (167mm×247mm)

Maximum load capacity: 260KG

Functional Features

1. Automatic pressure maintenance and automatic air supply
2. External exhaust+automatic cleaning and dust removal
3. Suitable for smooth and slightly rough tiles
4. Integrated digital display screen
5. Double filtering
6. Dual motor

Model DFX-SISX

Name: Intelligent Industrial Suction Cup

Maximum load capacity: 200KG

Functional Features

1. Function: Automatic pump
2. Suitable for smooth and slightly rough tiles
3. Material: PA6+rubber
4. Output Voltage: 21V

PLATE LIFTING DEVICE

Name: Plate lifting device (enhanced version)

Vertical suction: 200KGS

Suitable for 3200×1600mm
porcelain slab

Up to 10 suction cups can
be added

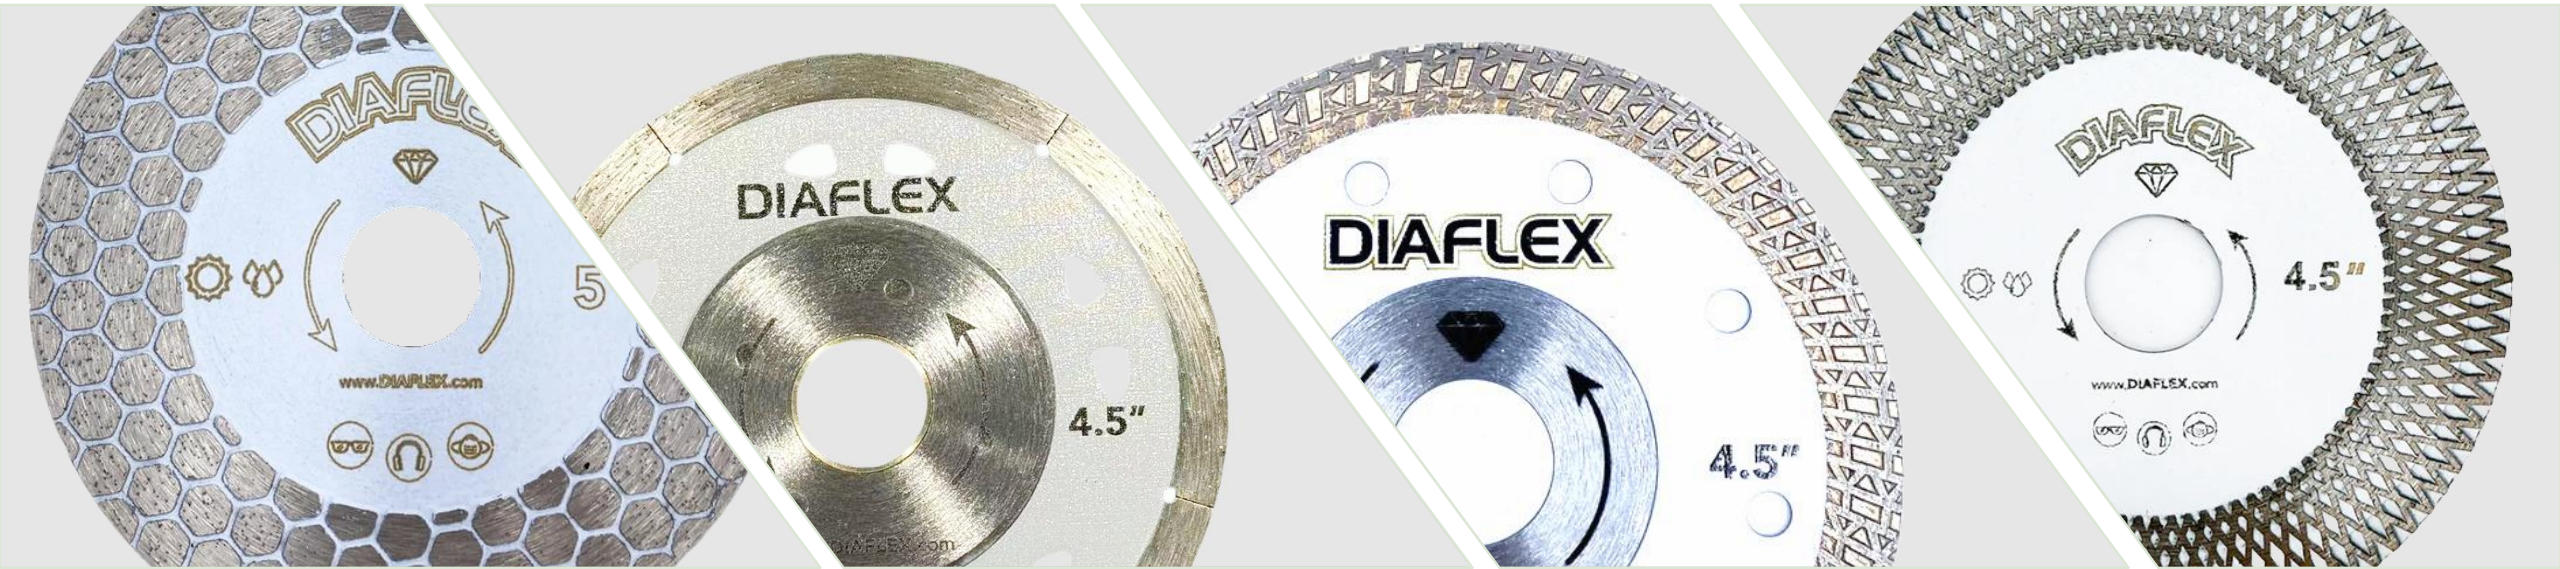

Name: Plate lifting device (regular model)

Vertical suction: 200KGS

Suitable for 3200×1600mm
porcelain slab

Up to 8 suction cups can
be added

Wedges size: 85*20*17.5mm

Accessories

Knee Pad

Various types available

Gel Knee Pad

EVA foam pad is extremely comfortable, and thick gelpad supports your joints. Heavy duty men's kneeprotection structure, safe ft, anti slip, and ultimateprotection for your knees.

Standard Manual Tile Cutter

Simple style, easy to carry. Steel structure, sturdy and durable. Long service life, ergonomic design, comfortable to use.

The heavy-duty structure, aluminum substrate and double solid guide rail make it stable and sturdy, and the heavy-duty structure is not easy to bend or flip during the cutting process. Long service life. Ergonomically designed, the anti slip rubber handle that conforms to ergonomics helps with accurate grip and downward pressing, ensuring safety and comfort.
